

The Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

My husband couldn't find work in Michigan in his commercial electrical [Union] field after 9/11. He has to work in Miami and the phone and my AT&T phone card is all that holds our marriage together. He uses most of what he earns just to live in grungy Miami motels.

Don't bleed us to death. We live below the poverty level and it is getting too expensive to work and live! Have some compassion on those who are just barely surviving financially!

Carol Rhodes 14250 Stuck Rd.  
Delton, MI 49046

Sincerely,

Carol Rhodes
